## Editor's Note

37<sup>th</sup> session of the SAARC Council of Ministers, 42<sup>nd</sup> session of the SAARC standing committee and the 52<sup>nd</sup> session of the SAARC programming committee were held in Pokhara, Nepal on March 14-16, 2016, as part of the SAARC inter-summit sessions. Foreign ministers of all the South Asian countries attended the Council of Ministers meeting which endorsed several proposals such as, SAARC summit will be held in every alternate November; Amjad Hussain B. Sial as the next secretary general of SAARC; establishment of SAARC disaster management centre in Delhi and centre overseeing environmental issues in Pakistan; amendment to the SAARC Development Fund Charter etc. Deputy Prime Minister and Foreign Minister of Nepal Kamal Thapa, who chaired the session, called the event a "grand success". However, analysts are not very satisfied with the outcome of the meeting. Deliberations were held over 32 agenda items during the two days, but the council of ministers could come to consensus to endorse only a few of them.

The leaders of the member countries held several formal and informal meetings on the sidelines of the summit, where they discussed their bilateral issues with each other. It is rightly believed that the SAARC faces setback due to the bilateral problems between India and Pakistan.

Nonetheless, there are problems and issues between other regional members too. This issue of the South Asia Trends highlights the major developments in the area of domestic politics, economics and international affairs of the South Asian countries (excluding India) in the month of March. The issue will give a glimpse of the complex relations that exist among the countries in the region.

The 128-member delegation from the South to Jaffna included the Minister, the Deputy Minister the heads of state media institutions, media representatives, and electronic, print and web journalists. In Jaffna, the delegation met the Northern Province Chief Minister C.V. Wigneswaran, Northern Province Governor Reginald Cooray and religious leaders, and visited Nagadeepa Viharaya, Nagapooshani Temple, Jaffna library and the Sri Lanka Air Force base at Palaly and four media institutions, Valampuri, Uthayan, Thinakkural and Dan TV.

### **Stock of arms found in Sri Lanka's North<sup>138</sup>**

Just hours after the police in Jaffna found a haul of explosives and a suicide kit in Chavakachcheri in Jaffna district on March 30, the police recovered another stocks of explosives and weapons at a location in Mannar district in the North. In both occasions the explosives are believed to have been hidden by the Tamil Tiger rebels during the war period. The discovery of arms in the North has raised concerns among the opposition parliamentarians that the Tamil Tiger rebels are regrouping in the North. The opposition charged that the government is concealing the truth behind the weapons discovery and demanded the government to conduct an urgent inquiry and reveal the truth to the public.

### **People's movement against Port City Project to launch fresh campaign<sup>139</sup>**

Following Sri Lankan government's decision to resume the China-funded Colombo Port City Project, a people's movement opposing the project has vowed to launch a fresh campaign against its resumption. The People's Movement against the Port City has demanded Sri Lankan President Maithripala Sirisena and Prime Minister Ranil Wickremesinghe to immediately halt the project on the grounds that it is detrimental to the country's environment. The Sri Lankan government received the go-ahead from the Cabinet to resume the Port City Project after a comprehensive environmental impact assessment. However, the People's Movement against the Port City says coastal environment will be severely affected as a result of the construction activities of the Port City project.

### **Resolution on Constitutional Assembly passed by Parliament<sup>140</sup>**

The resolution on the Constitutional Assembly was passed by Parliament on March 9 with amendments and without a vote. Under the resolution, Parliament will be converted into a Constitutional Assembly to draft a new Constitution.
